

The Mini•Touch is a compact, steering wheel mounted control pad that allows easy access to 6 or 12 vehicle controls such as wipers, turn signals, horn and high/low beams. All functions are easily accessible without compromising steering wheel controls.

**Available in multiple variations such as push button, toggle and Gen II.**

At Access Unlimited we believe that mobility, like people, comes in all shapes and colors. We celebrate the rich diversity of our customers' needs by creating products that allow easy access to ANY vehicle, from cars and vans to trucks and SUV's. We believe that adaptive equipment should be unobtrusive and should meet the needs of its user with a minimum of modification to vehicle or lifestyle. We believe every person should be able to choose the vehicle of their liking, regardless of their disability. Access Unlimited products empower people with disabilities to regain control of their mobility. The application chart below graphically displays the applicable disability level for each of our products.

# Solutions To Your Accessibility & Mobility Needs

**MULTI•LIFT**

The versatile Multi•Lift transfers anybody with any level of disability into most vehicles. The same portable Multi•Lift can also be used indoors with a wall mount bracket or with the Easy-Base traveling lift base.

The Multi•Lift can be used indoors in bedrooms, bathrooms or any room. The Lift is powered by either a battery pack or a convenient transformer. A handy magnetic control box attached to a spiral cord allows flexible transfers and is easily stored on any metal surface. Side to side movements are done manually.

The Easy-Base is a portable wheeled base for the Multi•Lift. Vacations, hotels and second homes are now conveniently accessible with the Easy-Base.

**GLIDE 'N GO**

Disability Level

The Glide 'n Go flip-down power lift seat enables you to enter and exit your van, truck or SUV by lifting you from your wheelchair up to your vehicle seat.

**EZ•TRANSFER**

Disability Level

The EZ•Transfer is a flip-down transfer seat that acts as a bridge between your wheelchair or scooter and your vehicle seat. Securely attached to the vehicle and easier to use than a transfer board, the EZ•Transfer stows quickly when you are driving, or when other drivers or passengers use your car.

**STAND-EASE**

Disability Level

The Stand-Ease helps you get in and out of a low car seat. Swing your legs out of the car and the padded lift bar raises your buttocks until you are standing. When you enter the car, the padded bar lowers you gently to seat level.

**EASY REACH**

Disability Level

**Power lift chair for Trucks, SUV's & Vans**

The Easy-Reach lift seat allows your original seat to swivel out of the vehicle and lower to wheelchair height. You transfer from the wheelchair to the vehicle seat, press a button and the Easy-Reach lifts you up into the vehicle.

Disability Level

**Power lift chair for Van Center Seats**

The Easy-Reach lift seat allows your van or minivan's center seat to swivel out of the vehicle and lower to wheelchair height.

You transfer from the wheelchair to the vehicle seat, press a button and the Easy-Reach lifts you up into the vehicle.
