

The **STAND-EASE** is a transfer bar which works in most sedans and coupes solving a variety of transfer problems. It serves as a standing aid for persons who can walk, but have trouble rising to a standing position. It works equally well for users with very limited use of lower extremities. The **STAND EASE** is economical to buy, especially compared to other access equipment that may require another vehicle to buy.

Can you walk but have difficulty getting in and out of your car? Let the **STAND-EASE** show you the **easy way** to enter and exit your vehicle!

The STAND-EASE is simple and convenient!

Fits most cars with little or NO MODIFICATION and is available through a network of over 1,500 certified dealers world wide

- Enter the vehicle by sitting on the Raised bar in the doorway and pressing the "down" switch.

- With the **STAND-EASE** in the fully down position just rotate into the vehicle!

- To exit, simply rotate facing out of the vehicle press the "up" switch, and you're ready to walk or transfer!
